

**Massimo Ciuffini**  
Civil Society Representative

Massimo Ciuffini is an Italian architect specializing in projects related to transportation policies, urban development, and shared and non-motorized mobility. As a designer and planner, he worked on these issues for a variety of Italian cities and, in his hometown of Perugia, he designed the Minimetrò, the first Automatic People Mover in Italy.

He also works as an expert for the Sustainable Development Foundation in Rome and for the Italian Ministry of the Environment and Energy Security (National Operational Plan Governance).

**Other Positions**

- Member of the European project CReIAMO PA, developed by the Italian Ministry of the Environment to empower public administration on sustainability issues (2018-now)
- Technical Coordinator of the National Shared Mobility Observatory (2016-now)
